## Dean's Greenhouse Gift Certificates

This year we are only using Dean's Greenhouse for our flower supplier due to the problems that we have had with getting plants from our other supplier and the quality of those plants. We believe that the quality of plants that we get from Dean's Greenhouse is the best for our customers. Because Dean's limits the plants, flowers and colors selections that are available to the fundraiser organizations, some of the flower plants or colors you have purchased in the past may not be listed. Dean's has a wider selection of plants, flowers and colors that we do not offer for our fundraiser. So, if you do not see the flowers or colors that you want, consider purchasing some gift certificates from us to Dean's Greenhouse. You can visit Dean's Greenhouse and will have a greater selection there. Gift Certificates also make great gifts to give to others!

### Attention - Impatiens Lovers

Downy mildew may still be an issue in our community. This past season in Cleveland, the disease was still present and showed up in early August. Deans Greenhouse will be spraying the impatiens each Monday through the entire season with a fungicide. The plants will leave Dean's Greenhouse disease-free. They will also have protection for 21 days from the residual activity of the fungicide applied here. There are some retail products on the market now that home consumers can purchase to continue the protection.
